

User notes for detailing the Spec Sheet for your kit / stash order

Thanks for the order and now we want to deliver the goods as soon as possible.

If you are having an embroidered crest , please don't forget to send us a good quality **JPEG** or **EPS** file of the crest you want along with the Spec Sheet.

Here goes,

CUSTOMER. Please put your name and the club/society here

JOB/DESIGN. Please put your order number here. This can be found on your order confirmation.

ARTWORK APPROVED. The date you send it back to us.

APPROVED BY. Your signature here , please.

There are 2 pictures of T Shirts but these are indicative of all garments that cover the body , ie jerseys , polo shirts , netball dresses.

They are self explanatory with FRONT and BACK and if you want embroidery , for instance on the front left breast , then indicate with a circle that is the area you want the crest and write CREST at the side.

The same is for any printing on the front or back. Just indicate where you want it positioning.

As you can see you can have sleeves printed and embroidered along with caps & beanies.

Shorts - Again these may have embroidery and/or printing so just indicate on which leg and if it is front or back.

NOTES. With kit orders especially , you will need to tie up sizes with numbering and this is the area to fit this detail in. If you want a specific colour of numbering or lettering for names , sponsors logo etc , then this is the area to tell us.

If it is a large order and there isn't enough space , please put it down on a separate form and e mail it back to us.

At Uni Sport UK Ltd , we hope to make it an easier way to order club kit and stash but if you are unsure of anything or have any questions please contact , sales@unisportuk.com.

Many thanks again for the business!
